Technical Manager – Water Recycling (Non-Infra)

The Role:

Here within the @one Alliance we are a totally collaborative organisation made up of our seven partner companies (Anglian Water, Balfour Beatty, Barhale, MMB, MWH Treatment, Skanska and SWECO) and our extended supply chain, delivering over half of Anglian Water's capital investment programme.

We are heading into our latest Asset Management Period, known as AMP 7 and this will see us deliver a £1.4bn programme of work over the next five years. Are you ready to join us as we gear up to deliver the most exciting and innovative AMP we have ever seen? With such an exciting portfolio of projects planned for AMP7 to keep the water flowing across the region, our ability to manage our work and outperform our customer's expectations will come under greater scrutiny.

To ensure suitable designs, resources and engineering outputs are achieved for designated projects, we are looking for a Technical Managers to join us in our Water Recycling Non-Infra team!

What will you be doing as our new Technical Manager?

As our new Technical Manager, you'll be responsible for CDM Principal Designer duties whilst ensuring technical outputs meet the requirements of the Totex Delivery Process as well as meeting project affordability within timescales agreed with the project team. As a visible and hands on leader, you'll regularly provide technical support during assembly as required.

Key Responsibilities:

- Deliver complete designs to meet project requirements whilst embracing technological advancements and help achieve the aim of fully attributed 3D models for every project to facilitate the manipulation of data
- Develop and embed standard products, quality standards, collaborative working approaches and the Risk, Opportunity & Value process to optimise performance and reputation
- Drive and champion excellence in Health & Safety by completing required audits and documentation and never compromising anyone's safety during projects
- Plan the technical aspects of project by liaising with Lead Project Managers, Integrated Project Leaders and Discipline Heads; paying attention to correct resource allocation to meet project demands
- Effectively manage a wide-range of diverse stakeholder groups by acting as the trusted and visible technical link between Operations, Construction and Commissioning
- Provide an environment where individuals can thrive and develop to enhance the overall team's performance by continuously pushing the boundaries to consistently outperform

come and work with us

Person Specification:

To join the team, you'll hold a degree, HNC or HND in Engineering and have experience in a technical role and comfortable managing designs and multi-disciplinary projects.

Able to inspire and lead a team, you'll be customer focussed in all the activities you undertake. With a strong appreciation of how collaboration can truly unlock complex projects, you'll be able to assess unique situations and draw upon your technical expertise to make decisive, yet safety conscious, decisions to keep projects on track.

Always operating with integrity and accountability, you'll be able to build rapport and trust amongst your stakeholder and establish yourself and the team across the Alliance.

Benefits:

As well as offering a competitive salary, remuneration for this role includes flexible benefits, which provides a range of guaranteed benefits including but not limited to:

- Company car/car allowance
- 5% Company pension contribution
- Life Assurance at 2 x notional salary
- Single persons private medical cover
- Permanent Health Cover

In addition you may be eligible for entry into the Company's non-contractual bonus scheme, based upon, among other things, the performance of the employee and of the business unit and/or Company.

About Barhale:

Barhale is one of the largest privately owned civil engineering and infrastructure specialists with 40 years' experience working UK-wide across the water, transport, built environment and energy sectors. Founded by our Chairman, Dennis Curran in 1980, the group was originally set up as a specialist tunnelling contractor. Whilst we retain our tunnelling roots, repeated success in several sectors of the construction industry has enabled us to expand our skill set and become one of the largest privately owned infrastructure specialists in the UK.

What we do

We provide design, construction and maintenance services to the following sectors;

- Water
- Transport
- Energy
- Built Environment

We also possess a range of specialist skills to support our civil engineering and infrastructure activities including

come and work with us

- Tunnelling
- MEICA capabilities
- In-house design
- A steel-fabrication and supply subsidiary (BCS Group)

Who we are

Barhale operate as a tier 1 partner for blue chip, regulated and private clients. We work as part of large frameworks, joint ventures and alliances, as well as on individual projects developing long-standing relationships based on Trust, Integrity and Pride.

Our People

We employ a direct workforce of over 800 employees nationwide. We recognise that our business is only as good as the people we employ, which is why we value them so highly and invest in regular training and development, utilising our dedicated training facility in Walsall.

How to apply:

Please send your current CV and covering email outlining your suitability for the role to careers@barhale.co.uk

We are an equal opportunities employer. We are determined that no job applicant or employee receives less favourable treatment on the grounds of sex, pregnancy or maternity, gender re-assignment, sexual orientation, religion or belief, marriage or civil partnership, age, race or disability. All information will remain confidential to Barhale and will be handled in accordance with the requirements of the Data Protection Act.
