

come and work with us

The Barhale logo consists of a yellow square with a white circle inside, followed by the word "Barhale" in a bold, white, sans-serif font. The background of the top section of the page is a photograph of construction workers in orange high-visibility gear and white hard hats, standing on a metal railing against a blue sky with white clouds.

Civil Engineer (Graduate)

The Role:

The role will include providing technical support during the construction phase and also during project close out, to ensure that a number of tasks are carried out on site with regard to Safety, Environment and Efficiency, and to assist the Site Agent and Foreman with the efficient and effective running of the site. The Civil Engineer will also plan enabling activities to ensure timely work packages for the construction teams, which are safe and line with the company procedures.

Key Responsibilities:

Engaging with site operatives

Maintain a register of operatives and staff on site detailing their training records
Identify training needs of site personnel and inform them of upcoming training bookings
Liaise with the Foreman to complete staff wages in draft, and finalize with the Site Agent

Site documentation and statistics

Ensure all paperwork and posters are displayed on the site office wall and kept up to date
Ensure all reported near misses are recorded following procedure, and submitted to the Office Manager each week
Ensure all Safety and Environmental Statistics are recorded and sent to management monthly
Ensure current revisions of drawings are the ones being used on the site
Upload relevant site information onto Envoy, ensuring it is up to date
Deliver toolbox talks and present Cascade to site operatives, ensuring Cascade registers are completed and returned
Maintain a site diary, site correspondence file and photographic record of the project
Produce and display a roles and responsibilities chart, establishing the responsibility for each role on site

Monitor plant and equipment

Produce a site register to record all items to be inspected under LOLER and PUWER Regulations, and ensure they are regularly checked
Record the condition of plant arriving on site on a form with photographs
Check the weekly plant sheet against the actual plant on site and ensure any anomalies are resolved through communication with the Cost Manager

Technical Support

Provide technical information/advice
Propose and/or develop value engineered solutions (during optioneering and design phases)
Produce ITP's and Task Briefings
Produce 2 week look ahead in conjunction with the Site Agent
Produce Site Diaries and Allocation Sheets

Key Measures & Targets:

Accurate and timely setting out of the works
Timely handover of works and Quality records without outstanding defects
Production of accurate records, drawing registers and weekly diaries

come and work with us
