Planner

The Role:

Here within the @one Alliance we are a totally collaborative organisation made up of our seven partner companies (Anglian Water, Balfour Beatty, Barhale, MMB, MWH Treatment, Skanska and SWECO) and our extended supply chain, delivering over half of Anglian Water's capital investment programme.

We are heading into our latest Asset Management Period, known as AMP 7 and this will see us deliver a £1.4bn programme of work over the next five years. Are you ready to join us as we gear up to deliver the most exciting and innovative AMP we have ever seen?

As we look to increase our efficiency whilst outperforming against project and customer expectations, it is essential we plan in the most innovative, robust and accurate fashion. With this in mind, we are looking for Planner with some experience, who is keen to progress further, to join the team!

Key Responsibilities:

- As our new Planner, you'll take ownership of the project plan, drive the project team to deliver to the plan and challenge any delay and deviation. You will be a key member of a wholly collaborative team and will use your experience, enthusiasm and skills to help the team drive efficiency and outperformance.
- Key responsibilities:
- Collaboratively develop and maintain robust detailed project plans for the Delivery Team in accordance with @one requirements ensuring methodology is consistently followed
- Ensure project plans capture the full project scope and resources are considered and loaded as required
- Pro-actively identify opportunities and risks in the plan. Monitor the critical path and key milestones, advising the delivery team on any potential changes and leading challenge and mitigation actions.
- Develop 4D animations of the project plan to aid digital rehearsal of the project construction.
- Design and implement effective and value- added communication plans ensuring relevant teams and individuals are clear and buy into the strategy and approach
- Ensure planning standards are maintained across @one and published processes are adhered to.
- Appreciate and uphold the Health & Safety standards in all planning processes with the mantra of 'Nothing is so important that we cannot take the time to do it safely' at the heart of all activities

Person Specification:

To be considered for this role, you'll have demonstrable experience of working on relevant projects within the Civil engineering sector, preferably in the Water Industry.

To succeed in this role, you'll require P6 experience. With experience of leading collaborative planning processes, you'll have the ability to interrogate / take information from drawings to implement an efficient planning service to the business.

Your ability to communicate complex information to a wide range of audiences whilst working in a pressurised situations to tight deadlines will be crucial. Able to adapt as required to meet project objectives, you'll be innovative and supportive to other member of the teams to enhance the reputation of the Planning team amongst the business.

Benefits:

As well as offering a competitive salary, remuneration for this role includes flexible benefits, which provides a range of guaranteed benefits including but not limited to:

- 5% Company pension contribution
- Life Assurance at 2 x notional salary
- Single persons private medical cover
- Permanent Health Cover

In addition you may be eligible for entry into the Company's non-contractual bonus scheme, based upon, among other things, the performance of the employee and of the business unit and/or Company.

About Barhale:

Barhale is one of the largest privately owned civil engineering and infrastructure specialists with 40 years' experience working UK-wide across the water, transport, built environment and energy sectors. Founded by our Chairman, Dennis Curran in 1980, the group was originally set up as a specialist tunnelling contractor. Whilst we retain our tunnelling roots, repeated success in several sectors of the construction industry has enabled us to expand our skill set and become one of the largest privately owned infrastructure specialists in the UK.

What we do

We provide design, construction and maintenance services to the following sectors;

- Water
- Transport
- Energy
- Built Environment

We also possess a range of specialist skills to support our civil engineering and infrastructure activities including

- Tunnelling
- MEICA capabilities
- In-house design
- A steel-fabrication and supply subsidiary (BCS Group)
