Mobile Plant Fitter – East Region

The Role:

As a Mobile Plant Fitter for BCS Group, you will be responsible for the service, maintenance and repair of company assets within our hire fleet.

Based from home you will on a day-day basis be required to travel regularly to different locations servicing, maintaining and repairing all Plant equipment within our range, providing onsite service to customers. This will include attending breakdowns, carrying out scheduled services, capturing machine damage, completing and keeping accurate and comprehensive equipment maintenance records at all times.

Communicating effectively is a key part of this role, ensuring that your line Manager and Customers are kept informed as required. Working as part of the Plant department operations team and providing full operational support to all areas of the business as required.

Key Responsibilities:

Service & Maintenance

Effectively plan and complete service and maintenance for mechanical and non-mechanical plant and specialist equipment, following manufacturer guidelines and company processes.

Raise workshop jobs in the system detailing hours and parts used for all service, maintenance and repair work completed saving the updated certificates on the shared drive.

Request parts for workshop jobs to be ordered using the workshop module in the system.

Ensure damage repairs are processed as rechargeable in the system where applicable and photographs are submitted to support charges.

Maintain stock of tools, spares and consumables held on the vehicle. Request purchase orders to be raised for stock shortfalls or parts required and suggest stock holding levels requirements to management.

Identify equipment for disposal and highlight to management.

Create workshop jobs for all scheduled-on site work. Complete documentation for all scheduled and unscheduled work completed. Accurately record of hours and parts used on return to the depot.

Liaise with the customer during all on site work to ensure they are aware of progress and potential down time of equipment.

Commercial

Maintain accurate stock levels within the system by ensuring orders are picked accurately.

Report stock issues and highlight where customer orders could potentially be delayed.

Complete stock checks as requested, feeding back to management and Quality Team.

Support the business during annual stock checks.

Health and Safety

Complete tasks in accordance with depot risk assessments, notify the Team Leader of any potential non-compliance. Report accidents and near misses using the correct methods.

Ensure that all customer site inductions are completed before work commences.

Ensure the correct PPE is used in the depot at all times.

Maintain excellent levels of housekeeping, ensure areas are free from waste and trip hazards.

Complete weekly checks for all equipment used as listed in department file.
