

come and work with us

Senior Quantity Surveyor - Anglian Water (IOS) Integrated Operational Solutions.

Here within Anglian Water, we collaborate with a number of alliance partners to provide the best water and water recycling services across the region by maintaining our existing assets and undertaking new projects to safeguard future water supplies.

Playing a key part in our drive to bring environmental and social prosperity to the region we serve through our commitment to Love Every Drop is our Integrated Operational Solutions (IOS) Alliance. Comprising of Anglian Water, Morrison Water Services, Barhale and Kier, the IOS Alliance work together to concentrate on solutions across the water recycling and clean water asset base, typically totalling £50-60m per year.

How we spend our money on activities that directly impact our communities has never been under as much scrutiny as now. Our Commercial team are responsible for the Commercial Management of the projects we deliver and to work on projects valued between £2,000-£1,000,000, we are looking for a driven and enthusiastic Quantity Surveyor to join the team!

What you will be doing?

- Ensure the embedded alliance is provided with accurate cost and value reporting and forecasting to mitigate adverse financial impacts
- Ensure effective cost capture ensuring all costs are allocated appropriately.
- Lead the identification of cost reduction opportunities and provide support to help stakeholders realise them
- Provide commercial support to stakeholders including ensuring alliance members' internal reporting needs are satisfied
- Ensure compliance with agreed commercial processes and procedures
- Create a culture of collaborative working both within the embedded alliance and with other AW alliances

A little bit about your skills. Experience and behaviours

- Thorough understanding of NEC3 forms of contract
- Thorough understanding of relevant construction and contract law
- Must have expert commercial acumen
- Managing teams across a matrix environment
- Acts in a truly collaborative fashion and inspires others to do the same
- Proactive management of the allocated programme area and prompt escalate issues as necessary
- Demonstrate resilience if there are setbacks

If the opportunity to add value to a commercial team who delivers community-centric and vital projects appeals to your career aspirations, please apply today!
